# What can Robotics do for Processing?

SEB

**LOWER  
COST**

---

**HIGHER  
PRODUCTIVITY**

**IMPROVE  
QUALITY**

---

**SCALABLE**

**INTEGRATE  
SEAMLESSLY**

---

**ADAPTIVE**

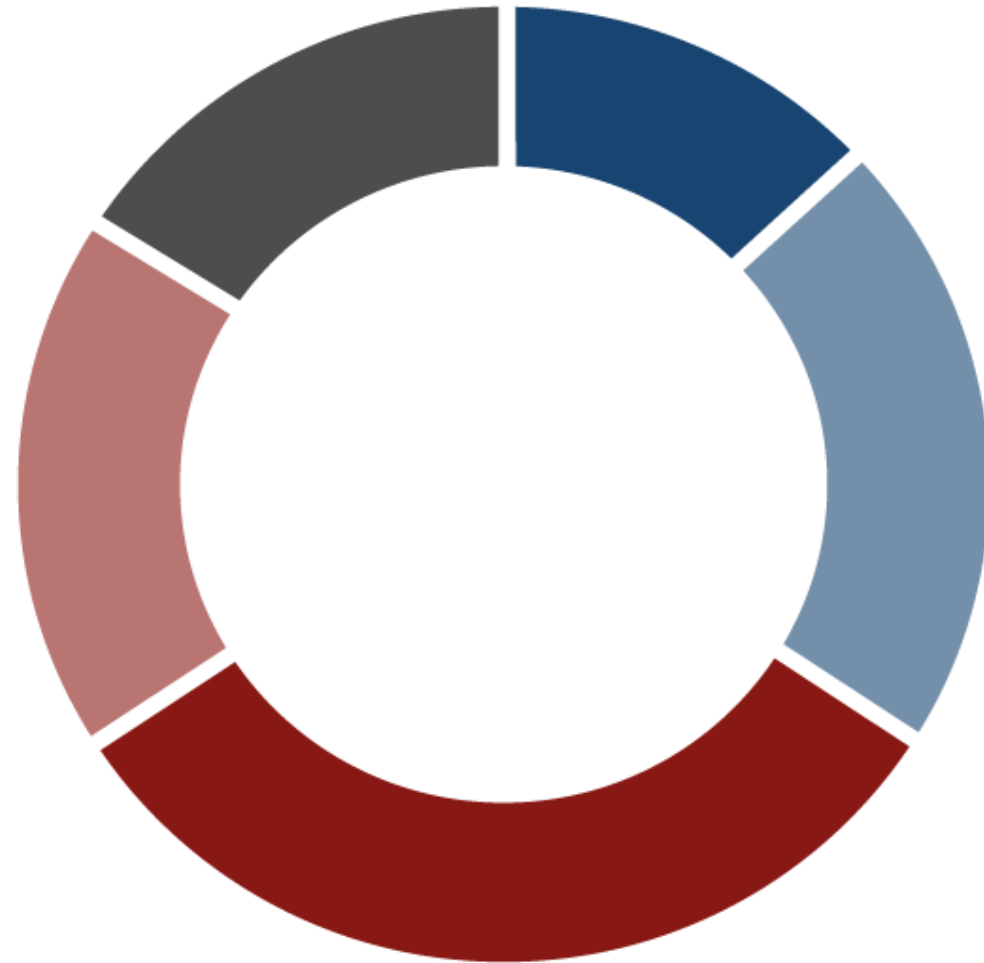

# Industry

# Where are you in the Robotics journey?

- Not started ..... **13%**
- Not started but planning to .. **21%**
- Piloting ..... **31%**
- Implemented solution and .. **18%**  
evaluating results
- Implemented solution and ... **16%**  
looking to expand usage to  
other processes

# How many processes have you automated through Robotics?

# What do you see as the main obstacle in implementing a Robotics solution?

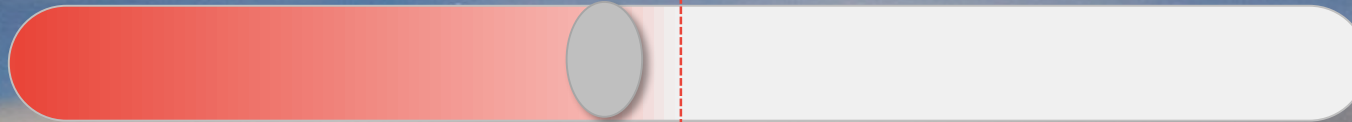

S|E|B

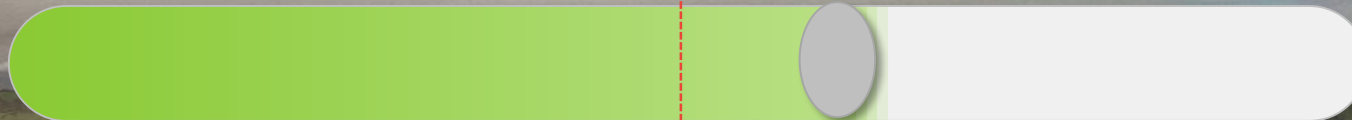

# Processes with high Automation suitability

Unstructured data

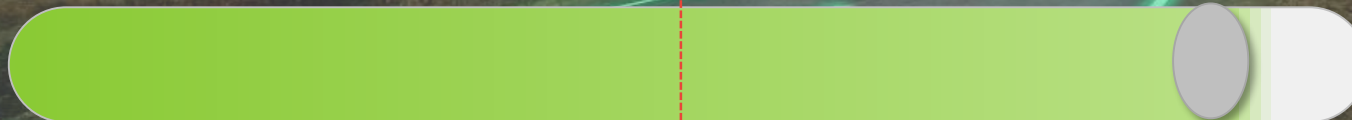

Digital data

Multiple variations

Standardized & Predictable

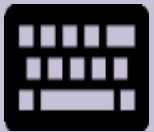

Human judgment

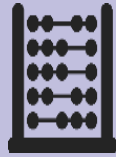

Rules based

# What have we achieved through Robotics?

COMPETENCE  
SHIFT

ACCURACY

PRODUCTIVITY

INVISIBLE  
COLLEAGUE

COST REDUCTION

# Thank you!
